

TECHNICAL BULLETIN

Dear Salsa Cycles Dealer,

We have found an issue with recent shipments of Salsa Marrakesh complete bicycles. Two sets of quick-release skewers were included in the Small Parts Box at assembly. There is a set of Salsa skewers and a set of steel Shimano skewers. The steel Shimano skewers should not be used with disc brake bicycles because an improperly tightened lever could become caught in the disc brake rotor. For more information about this issue see: quickreleaserecall.com/

Solution: ONLY INSTALL THE SALSQA QUICK RELEASE SKEWERS ON MARRAKESH BICYCLES. Please remove the steel Shimano quick release levers from the Small Parts Box and discard or recycle them. Do not give the steel Shimano quick release skewers to consumers for any reason.

Please contact Salsa if you have any questions about the issue or this Technical Bulletin at 877-668-6223 or support@salsacycles.com

Thank you,

Zach Fink
