

## Chili Con Crosso Swappable Dropouts

### WARNING

Installing this Salsa product on a bicycle requires in-depth knowledge of bicycle mechanics and professional-grade tools. If you do not have the proper tools or knowledge to perform this installation, please take your bicycle to your local bicycle dealer. Failure to appropriately install this product may lead to component failure, resulting in serious injury or death. We recommend that you have this product installed, adjusted and maintained by a professional bicycle mechanic.

### Swappable Dropouts

We've included two different interchangeable dropouts: vertical dropouts for geared setups and horizontal (15mm of adjustability) for singlespeed setups (Figs. 1 & 2). These mount with double-hex chainring bolts (included) and use 5 and 6mm hex wrenches to install (torque to 8 Nm). Standard chainring bolts can be substituted.
