Intended Use & Compatibility

The Salsa Anything Bag is designed to fit perfectly with our Anything Cage and the Anything Cage HD and hold up to 3kg/6.6 lb more gear. Constructed of waterproof 500-denier tarpaulin material with 275 cu in/4.5L of space, the Anything Bag is great for the smaller gear you don't want buried in a framebag or seat pack until you make camp.

Instructions

1. Place the Anything Bag in the Anything Cage or the Anything Cage HD. Pass the mounting straps through the webbing on the outside of the bag.
2. Route the top strap around the back of the frame or fork, through the inside of the cage, (figs. 1 & 2) and snugly around your cargo (figs. 3 & 4). Route the bottom strap around the back of the frame or fork and snugly around your cargo, making sure both straps sit flat and do not interfere with the wheel/tire or anything else.
3. Check that your cargo and all loose straps are secure before riding and periodically during use.

Ongoing Maintenance

Check to make sure the Anything Bag is securely held in the Anything Cage or the Anything Cage HD before riding.
